OUTLINES.

William J. Bryan arrived in t. Petertburg yesterday and will visit the Russian Parliament to-day; he endorses the call of Governor Cummins, of Iowa, for a meeting of Governors to urge the election of United States Senators by the people——William J. Bryan, Jr., arrived in New York yesterday from Bremen, and stated that he was surprized to find that his father is known even in China and India——Curtiss Jett, one of the Kentucky feudists yesterday confessed to the murder of James B. Marcum at Jackson, and implicated Elbert Hargis and ex-Sheriff Callahan who have been arrested; their arrest caused great excitement at Jackson and a fresh outbreak is feared——William Lee, the negro who assaulted two ladies in Somerset county, Md., confessed the crime and has been safely lodged in jail at Norfolk awaiting a requisition from the Governor of Maryland—The fire in Baltimore early yesterday morning resulted in the loss of three lives and a property loss of $1,000,000——The appropriation for a monument to mark King's Mountain Battlefield is safe, the House yesterday having agreed to the Senate amendment——In the railroad investigation at Philadelphia yesterday, the Interstate Commerce Commission announced that the railroads would be permitted to put in a defense at Washington, June 21, but that the officials must appear at their own option as no subpoenas would be issue for them; it was developed that the Pennsylvania and Santa Fe Railroad control the Norfolk and Western——The killing of two Italian laborers in Mitchell county, N. C., is being investigated by the Washington government——The Rebellion is spreading in Korea——New York markets: Money on call steady 3 to 3 1-4 per cent., ruling rate, 3, closing bid 3, offered at 3 1-2; spot cotton quiet 11.20; flour firm but quiet; wheat barely steady, No. 2 red 96 nominal elevator; corn steady; No. 2, 60 nominal elevataor; oats strong, mixed 41 1-2 to 42; turpentine and rosin, firm.

The politicians are lieing low till the farmers lay-bye.

Of course, at this stage of the game all politicians will do nothing else but say that they already have a tag on a seat on the Bryan band-wagon.

Senator Tillman says the people in Scuth Carolina who are opposing his dispensary system are "sneaks." It is curious how we always try to put it on the other fellow.

With personalities clouding the issues in the Georgia nominating campaign, the Georgia Democratic voter will have to make his vote a personal matter.

"Are odes wanted by the newspapers?" asks a magazine writer. Well, not right now. Their columns are too crowded with oderiferous matter about the Chicago packing houses.

"Who has done more to inflate the Bryan boom that Willie Hearst?" asks the Charleston News and Courier. Come to think of it he probably will dispute the honor with President Roosevelt.

Says the Charlotte Evening News: "From every part of the United States comes the cry of 'Bryan for 1908' and it sounds good to our ears." The Star can testify that the esteemed and also excellent and conscientious News has always refused to leave its seat on the Bryan band-wagon.

The Raleigh Evening Times remarks: "If Hobson keeps on denying these kissing stories his constituents will begin to accuse him of obtaining office under false pretenses." If Hobson is denying it we must remember that he is in a position where he can't give himself away. He has a wife now.

Andrew McNeace, said to be 101 years old who attained considerable prominene in Union county, S. C., during the Klu Klux times, by the discovery of a plot to murder a score of officials and charge the crime to Democrats, died in the town of Union yesterday.

The Charleston Post observes. "The exemption of the Pullman company was made upon the insistence of the House conference, it seems, and Senator Bailey very properly declared that the reason impelling them to this course 'was, to put it mildly, inscrutable.' Now, here, Senator Bailey surely knows enough to see some reason in the fact that House members consider their berthrights worth more than the mess of pottage dished up in the rate bill.

KNIGHTS OF PYTHIAS

Thirty-sixth Annual Session of North Carolina Grand Lodge at Greensboro

OFFICERS FOR ENSUING YEAR

Elizabeth City Next Place of Meeting—Gate City People Extending Royal Entertainment—D. O. K. K. Meeting and Banquet.

(Special Star Telegram.)

Greensboro, N. C., June 13.—The Grand Lodge, Knights of Pythias of North Carolina, in annual session here to-day elected officers for the ensuing year as follows:

Grand Chancellor—W. W. Willson, of Raleigh.

Vice Chancellor—W. C. Crist, of Winston-Salem.

Prelate—W. R. Coppedge, of Rockingahm.

Master of Exchequer—John Mims, of Rutherfordton.

Keeper of Records and Seals—W. T. Hollowell, of Goldsboro.

Master at Arms—McBride Holt, of Graham.

Inner Guard—O. C. Burton, of Mount Gilead.

Outter Guard—E. J. Jones, of Concord

At the afternoon session the newly elected officers were installed with the imposing ceremonies of the order by Past Grand Chancellor T. S. Franklin, of Charlotte. Elizabeth City was chosen as the next place of meeting.

To-night sixty-five candidates took the D. O. K. K. degree and an elaborate banquet followed in the Smith Memorial Building.

The thirty-sixth annual meeting was called to order in the spacious and beautifully decorated Castle hall of Greensboro Lodge, No. 80, last night at 8 o'clock by the Grand Chancellor Alf. S. Barnard, Asheville. A business session lasting about an hour was held. Among other things done at this meeting was the conferring of the Grand Lodge rank on sixty-five Past Grand Chancellors. Two hundred or more Knights were present at the meeting.

Shortly after 9 o'clock the Grand Lodge adjourned, formed a procession in front of the hall and marched to the Grand Opera House where an exceedingly interesting programme was carried out. To this the public was invited and all the available space in the opera house was occupied. The Knights entered the opera house nearly three hundred strong, marching down both aisles and taking seats which had been reserved for them in front of the stage.

To-day's sessions were largely devoted to business.

Stolter-Nelson.

Friends in the city yesterday received handsomely engraved invitations, bearing the following interesting announcement: "You are invited to be present at the marriage of Eva Carolina Stolter to Mr. Edward Adolph Nelson, Tuesday afternoon, June twenty-sixth, nineteen hundred and six at half after five o'clock S. Paul's Evangelical Lutheran Church, Wilmington, North Carolina." Both are popular young people of this city to whom friends will extend the happiest congratulations.

Negro Badly Stabbed.

Lewis Payne, colored, 20 years old, was taken to the hospital last night with six ugly stab wounds in his anatomy. He said they were inflicted by another negro in Love's alley, but gave few particulars. Two of the stabs were in his side, one on the arm, one on the neck, one on the wrist and one on the scalp. The wounds were dressed by Dr. Slocum, at the hospital. No arrests have been made so far as can be learned.

Capt. Maffitt in New York.

Friends of Capt. C. D. Maffitt will be pleased to know that he has successfully undergone one operation for his throat in New York and that there is every prospect for the successful result of another that he will soon undergo, restoring him completely to health. He will return to Wilmington in a week or two.

IN SESSION AT CLARKTON

Interesting Annual Meeting of Woman's Missionary Union of Wilmington Presbytery.

(Special Star Correspondence.)

Clarkton, N. C., June 13.—The nineteenth annual session of the Woman's Missionary Union of Wilmington Presbytery convened in the Presbyterian church here at 8:30 yesterday evening.

The opening sermon was by Rev. A. E. Baker, pastor of the Presbyterian church at Lumberton. His discourse was based on Christ's command to go into all the world and preach the Gospel to every creature. He showed something of the greatness of the work that had been accomplished in the foreign field during the past few years.

The Union proper was called to order at 10:00 o'clock to-day by the president, Mrs. Jackson Johnson, of Brunswick county. Then there were devotional exercises conducted by the pastor of the church, Rev. A. McFadyen. The roll call of the societies showed that out of 64 societies, 25 were represented by something over 50 delegates and visitors. Since the organization this morning others have come in, so that before the meeting ends to-morrow afternoon the number will probably be 75.

After the devotional exercises and roll call, Miss Gertrude McFadyen in a short and very appropriate manner welcomed the delegates and visitors into our midst. This was followed by the response, which was delivered in a graceful manner by Mrs. Barden. Then followed the reports of the standing committees, reports from the various societies, reports from the officers, and "A Map Journey to the Societies," by Mrs. C. R. Knight, of Wilmington. This closed the morning exercise, and an adjournment was taken until 2:30. Lunch was partaken of at the church.

The afternoon session was taken up in the young people's work. There are 33 young people's societies comprised in the union, and it is indeed encouraging to see the interest these young people take in this branch of church work. Mrs. Stewart, of Wilmington, has charge of this work, but in her absence it was looked after by Mrs. Knight.

At the opening of the afternoon session, there was a song service conducted by Miss Laura Dell Clark, followed by a devotional service conducted by Miss Alice Johnson. This was followed by reports from the various young people's societies. Miss Rosa Lee Clark recited in a pleasing manner "The Altered Question," and Miss Hattie Custis Cromartie sweetly sang "The Consecration Hymn." An address on mission work was delivered by Mr. C. A. Rowland. He talked principally of the work in China. The last thing at the afternoon session was a recitation, "The Master's Whisper," which was beautifully said by Miss Isabel McDougald.

To-night will be an exhibit of curiosities from foreign lands. This will be in charge of Mr. Rowland, who will be assisted by Mrs. W. H. Chadbourn and Mrs. J. S. Crowley.

The delegates and visitors are being entertained in the various homes in and around town, and our people are delighted to have them as their guests. The weather has been unfavorable, so much so that the crowds have been small, but it is hoped that the weather man will give us a good day to-morrow. The meeting will close with an address by Rev. R. Murphy Williams to-mororw afternoon.

Mr. L. J. Merriman Operated Upon.

Friends of Mr. L. J. Merriman will regret to know that it became necessary Tuesday night for him to undergo an operation at the James Walker Memorial Hospital for some kidney trouble, the operation being performed by Drs. Russell, Burbank and W. J. H. Bellamy. Dr. Finney, a specialist from Johns Hopkins, in Baltimore, was expected in time to assist with the operation but Mr. Merriman's condition became such that the operation had to be performed at once. Dr. Finney arrived yesterday for a diagnosis of several cases to which he has been called in this city.

Auto Rides on the Beach.

The Automobile Touring and Amusement Company announces that its machine has now been taken to the beach and the car is ready for daylight and moonlight trips along the beautiful ocean front. The course is from Lumina to Moore's Inlet and return, the charge for which will be only 25 cents for adults and 15 cents for children. Nothing more delightful can be imagined than a whirl up the seashore in the splendid touring car just purchased by the young men who compose the firm. Automobiling will prove a popular diversion at the beach this Summer.

FOUNDERED AT SEA

Unknown Three-Masted British Schooner Went to Bottom Off Cape Fear

EARLY YESTERDAY MORNING

No Tiding of Captain and Crew—Vessel in Eight Fathoms of Water—Probably the E. A. Sabean—Probaoly a Collision.

An unknown vessel, thought to be the three-masted British schooner E. A. Sabean, 268 tons, Capt. Sabean, bound from Norfolk to this port with part cargo of coal, was sunk night before last or early yesterday morning in eight fathoms of water, about five miles off the Cape Fear Bar. It is thought that she went down about 3 A. M., in a terrific gale of wind that was prevailing along the coast at that time or that in the darkness she was in collision with another vessel and was sent to the bottom. The latter theory seems more plausible from the fact that a barque was seen lying off the Cape Fear Lightship the afternoon previous, evidently also trying to get in for harbor, and from the further fact that the main rigging of the sunken vessel was found cut away by those who visited the scene yesterday. There are no tidings of the captain and crew, though there is a bare possibility that if the collision theory is correct, they were taken off the Sabean before she went to the bottom.

A barque presumably the same one that was seen off the Lightship the afternoon previous hove in sight again yesterday and the pilot boat Isabel immediately put out to her to bring her in or ascertain if the crew of the ill-fated vessel was aboard, but up to a late hour last night the pilot boat had not returned and no word was received.

About one-third of the masts of the sunken vessel are above water and these were sighted early yesterday morning by the Cape Fear Life Saving station crew, who communicated with the pilots at Southport at once. The Isabel, with Capts. William St-George, Julius Weeks, Walker Newton, Ben Newton and C. B. StGeorge on board, immediately put out to the vessel, arriving there at 6 o'clock. From the best they could judge, the rigging, etc., was that of a British schooner and knowing that the Sabean was due the time of the disaster, they were reasonably certain that it was she that went down. However, none of the hull was above water and there was nothing in sight to settle the identity of the vessel beyond a doubt. All her sails were set and there was every evidence from what was in view that the vessel had experienced some mishap before going down. The crew of the Isabel took off whatever available wreckage could be saved and will bring it into Southport. The Blanche arrived about 8 o'clock but could assist in no way in ascertaining the identity of the vessel. There was a heavy sea running at the time and it was with difficulty that any of the wreckage could be gotten off. The Isabel, however, remained by the derelict but nothing new could be learned in the way of floating wreckage.

The Sabean left Norfolk a few days ago for Wilmington and expected to complete a cargo for Kingston, Jamaica, with shingles from here Capt. E. A. Sabean was in command, being managing owner of the vessel, and his crew probably consisted of mate, steward and three men before the masts. The vessel hails from Nova Scotia and was at this port last Winter a year ago. Capt. C. B. StGeorge, who piloted the British steamer Glenwod up yesterday afternoon, had previously visited the sunken vessel and stated to a reporter that the masts and rigging seemed to indicate beyond a doubt that the vessel was the Sabean. The discovery of the masts was reported to the U. S. Revenue Cutter Seminole, at Southport, and she went out to see what could be done. The derelict is right in the track of navigation entering the Cape Fear bar and the cutter is arranging to blow up the hull. She, of course, is beyond all hope of being saved.

Unless all hands aboard were lost with their vessel, some tidings of the crew are expected to-day. There was an unconfirmed rumor yesterday that the crew was all safe on the barque which was sighted off the Lightship but the report could not be confirmed at Southport last night. The barque is said to be bound to Wilmington and, if so, she will probably get in this morning.

We believe, however, the obstacles that confronted us have now been removed and that subscribers on the Carolina Central may confidently expect to receive their papers on time.

CURSED BACK AT THE MAYOR

Kate Fisher, The Notorious, Made Another Scene in the Police Court Yesterday—Fined For Contempt.

Thirty days on the farm for being drunk and disorderly and an additional thirty days for contempt was the punishment meted out to Kate Fisher, the notoriously bad colored woman who gave Officers Minshew and Jones such a lively tussle near Front and Princess streets Tuesday night. Her case was called for trial before Mayor Pro Tem. O'Brien in the municipal court yesterday. The woman's manner was haughty indeed. She had no apology to offer for her disgraceful conduct the night before and talked back at the Mayor as if he were beneath her consideration. When the Mayor said "Thirty days on the road," she spoke up from the prisoner's bench, "I don't give a d—m for that."

It was at that juncture that the Mayor put an additional 30 days to her sentence for contempt. That would have been a quietus for the ordinary prisoner, but not so with Kate Fisher. She began indulging in the vilest language against the officers who had made the arrest and court had to suspend until she could be taken back down stairs to her cell in the station house. In the afternoon she was taken out to the farm to begin her sentence. All the officers voted Fisher about the toughest proposition they had ever met.

Another case of more than passing interest in the court yesterday was that of Charley Hines, colored, arrested yesterday morning before day at Seventh and Red Cross streets by Officer B. F. Reaves. Hines was half drunk and was carrying a hammock which had evidently been stolen from the porch of some residence. On the charge of being drunk he was fined $5 and costs but later the hammock was identified by Mr. W. L. West as one stolen from his residence at Fourth and Bladen and he is being held at the police station for trial to-day on a charge of larceny. He is an old offender in the court and gave the name of Simpson with the hope that his past record would not come up against him However, he was recognized by some of the officers and was given the full benefit of his standing in the past.

MARRIED LAST EVENING.

Miss Lillian G. Fowler, the Bride of Mr. Chas. F. Duffy.

A marriage of quite a little interest to a great many friends in this city and elsewhere was that of Miss Lillian Gay Fowler, the attractive young daughter of Mrs. P. R. Fowler, of Masonboro Sound, and Mr. Charles F. Duffy, of this city. The ceremony was performed last night at a quarter to eight o'clock at Number 313 Church street, this city, the Rev. A. McCullen, pastor of Fifth Street M. E. church, officiating. There were present to witness the ceremony only a few intimate friends and relatives of the parties to the marriage vow, but the wedding is described as a very pretty one indeed and one upon which the young people were warmly congratulated by those present. The bride was attended by Miss Lottie Duffy, a sister of the groom, who was attended as best man by the brother of the bride. The bride wore a charming costume of white China silk and looked very pretty as indeed did also her maid of honor who was also becomingly gowned in white, both carrying lovely bouquets of flowers.

The bride and groom will spend a part of their honeymoon on the Sound, but later expect to leave for the mountains to spend the remainder of the Summer, the groom having been in poor health recently. The young people have many friends who will extend happiest congratulations upon their marriage.

BOARD OF PHARMACY.

List of Successful Applicants Will Be Announced To-day.

Secretary and Treasurer Hancock, of the State Board of Pharmacy, stated last night that the Board had not been able to complete all the papers of applicants before the examing board Tuesday and that the names of the successful ones cannot be announced before some time to-day. Grading all the 48 papers was a difficult task and although members of the Board worked hard on them last night until a late hour the list was not completed.

The North Carolina State Pharmaceutical Association will assemble in its 27th. annual sesison this morning at the Seashore Hotel and a large attendance is expected. Many of the members have already arrived and are expected on the morning train. Tomorrow the druggists and their friends go for a trip to and dinner at Southport. Returning the party will visit Fort Caswell and are expecting a delightful day. The party will go on the Sea Gate.

DESTRUCTIVE FIRE

Retorts at Standard Turpentine Works Destroyed in Southern Part of City

LOSS WILL REACH $5,000.00

An Important Industry Crippled By Stubborn Blaze Early Yesterday Afternoon—Loss Probably Not Covered by Insurance.

Three of the main retorts at the plant of the Standard Turpentine Company, formerly the Weed Distilling Company, in the southern part of the city, were destroyed by fire yesterday afternoon at 3 o'clock, entailing a loss of something like $5,000. The origin of the fire is unknown. The company operates the plant for the extraction of turpentine from pine wood by a new process and the retorts were filled with several hundred barrels of rosin used as a wash in the system and for that reason the fire burned fiercely, the Department which responded to an alarm from Front and Surry streets, being unable to do more than confine the flames to the building in which it originated. The engine room, the office building, the company's power house and a saw mill operated for the manufacture of paving block, with refining distilleries of the plant, were not injured though in rather close proximity. The Willard & Giles Company carried the general insurance on the plant, but if the retorts were insured, the policies are carried in New York. No one at the plant yesterday was authorized to speak of the loss or the insurance. It is known, however, that the plant will be rebuilt at once and that something over a hundred employes at the works wil be given work until the plant is able to resume full operations again which will be within a month.

It seems that the fire started in Retort No. 1, which had been out of use for a while and was being started up again yesterday. In some way it caught on fire all at once and quickly spread to the other retorts sending up a dense black smoke. Fortunately the wind was not blowing at the time and there were few sparks else the Wilmington Cotton Mills and other industrial plants in the vicinity would have been endangered. Four streams of water from the company's own apparatus were first brought to play on the flames but the pressure was poor and little headway was made until the firemen came and the alarm went in to the pumping station. The cotton mill kindly loaned a stream from its works across a deep ravine dividing the two plants and by means of another stream from the fire boat Atlantic with came up the hill, a distance of 1,100 feet the firemen were able to keep the damage down to a minimum. The retorts will not be a total loss and some of the steam fittings may be of use later but otherwise the fire made a pretty clean sweep.

The fire alarm and the dense smoke to the southward attracted a large number of spectators who watched the proceeding about the fire with much interest. It is estimated that nearly two thousand people were on the hill overlooking the works while the fire was in progress there. The fire boat, barring its limited supply of coal and the difficulty of getting a supply down to the water front, did splendid work and had one of the best streams on the fire.

Messrs. Malcolm and Angus McKenzie, chief owners of the plant, are in New York but were telegraphed of the fire and will come to Wilmington at once. It seems that one of the greatest losses will be in the enforced shutting down of the works as it is understood that the company was behind with orders and every possible endeavor was being made to catch up when the retorts were destroyed. The company also has a plant at Fayetteville and both of these have been required to run full time to keep up with the demands for the superior products made by the concern.

Many people who went to the fire yesterday were surprised to find a plant of such large proportions as that owned by the Stanard Turpentine Company. The new process is a patent and the owners necessarily are not given to too much publicity about their operations. A large amount of machinery is carried at the plant as well as a large quantity of rosin and the like. The manufacture of the paving block alone is quite an important industry and is carried on in a large building devoted to that exclusively.

Naturally there was much criticism of the water supply and various instances were cited where the pressure seemed to be very inadequate.

NORTHERNERS SEEKING HOMES.

With a country like the South, with its unrivalled climate, vast resources and inexhaustible opportunities, it is astonishing to read that in two months of this year 43,000 people from the United States emigrated to aCnada, most of them probably to become British subjects. That number, however, constitutes a small proportion of the settlers who have gone to aCnada in the last few years.

That Canada has taken, from our northwestern States principally, 43,000 people in sixty days must be accepted as correct, for the statement was embodied a few days ago in the budget speech before the British Parliament. The immigration from the United States to Canada was almost as large as that from Great Britain, and as it appears that the people of some of our sister States of the North are in a notion to seek new homes, what is the matter with the South's holding out its attractions to them? We would prefer to have them to all classes of new settlers and in all probability many of them would come here if they knew of the inducements we have to offer in lands on which a living can be easily made, besides a wide field for business and industries, mining manufacturing, etc.

The influx of people into Canada is not without its interest, and it makes us think of our old geography in which there is so much about the Hudson Bay Company. It seems that this ancient corporation is the force behind this emigration movement from this country and Europe. The Philadelphia Press, accounting for the heigera of people to Canada says:

"The rapid material development of Canada is just now attracting exceptional attention in the mother country. No where is this reflected more than in the heavy advance in the shares of the famous Hudson's Bay Company. This venerable corporation, which is more than two centuries old and which antedates even the founding of Philadelphia, has taken on a new and vigorous life. Its stock has recently been rising at a rate that would gladden the heart of the most optimistic speculator in Wall Street.

"There are the soundest reasons, however, for the growing wealth of this historic company. Some forty years ago the Hudson's Bay managers sold their territoria. rights to the Canadian Government at a good price, and at the same time secured other rights to lands in the Northwest provinces. The recent big developments in the Winnipeg country have enabled the Hudson's Bay Company to sell land at big values, while those it still owns are rising rapidly.

"For about two hundred years the Hudson's Bay Company devoted its energies almost entirely to trading. It pushed its posts into the remotest regions of the North American Continent. It was bartering for furs with the Indians long before George Washington was born. The men who carried on its work took with them a spark of civilization into the wilderness, which in some places even today remains but a spark. Other parts there has followe the commercial flag of old Hudson's Bay an army of settlers. These have brought a tremendous change in Canada, and especially in the vast region of the Northwest.

"It turns out now that there is more money in timber and wheat than there ever was in the furs of wild animals. Cities are growing up in the lands that were secured in the sixties from the Canadian Government. Two trunk line railroad have been flung across the Dominion since those concessions were granted, and an American railroad magnate, James J. Hill, is now pushing a third one over the western half.

"What Canada has needed more than anything else, ever since Wolf's triumph at Quebec, is settlers. Just at present the Hudson's Bay Company is proving to be a most aggressive agent in procuring them. They are pushing into the anitoba country by tens of thousands. As a result of this agricultural growth, Canada has a larger supply of exportable wheat, in proportion to the crop grown, than the United States. The extraordinary difference that has existed between the material advancement of this country and its northern neighbor has always been greater than the mere location of territory would justify.

"For those who have respect for ancient institutions it must be gratifying that of all the agents that are trying to put blood into Canada, the Hudson's Bay Company is the leader. From the trapping of beaver to the sale of town lots is a big jump, but it seems to have been a very profitable one for all concerned."

It appears that the immense ttmber tracks and fine wheat lands are the principal things that are attracting settlers in Canada, but when we put against them the hundreds of advantages in the South it is remarkable that there is not a tremendous influx of new people to the fair Southland. Is it because people do not know what we have South, or are misinformed about things Southern?

THE NORTH CAROLINA HAM.

The other day the Star contained a paragraph concerning the succulent North Carolina ham, and taking up the subject, the Raleigh Evening Times says:

"The North Carolina ham will now assume its old-time dignity," remarks The Wilmington Star. 'No Chicago in that.' And there isn't anything finer in this world of food than the country ham, well cured, well seasoned and well cooked. The Smithfield brand is glorious enough, but the North Carolina ham, with a little brown gravy on the side, temps the appetite and makes an ill man strong and hungry. It stands in the front rank with the North Carolina shad and the North Carolina 'possum and the North Carolina corn. They are distinctively Tar Heel products. The man who has a home of his own and who stands i with his wife is not deserving of pity if he fails to secure that which his system desires, and the rest of us must be satisfied with the neck of the ox which is served by the people who permit us to pay them a monthly stipend that we may save ourselves from starvation. When the hog is executed in the winter time there is a housewife near by to see that the conditions which prevail in the stockyards are not duplicated near the barn yard. There is no demand for a Reynolds or Neill. The rich, red meat is neatly trimmed and salted and then sent away to the smokehouse and the ashes. By and by it turns up on the table and hungry the man craves it and chorties in his glee."

The Charlotte News is moved to say:

The Wilmington Star remarks, "The North Carolina ham will now assume its old time dignity, and this is true, thanks to the fates. And what is more delicious than a real old North Carolina ham—a slice of it with a little gravy on the side, and a cold glass of germless sweet milk and one of those large brown biscuits that only North Carolina housewives can bake? This combination forms a feast fit for the gods, and in partaking of it one does not see visions of sick beds and funeral processions, for it is pure. When the hog was slaughtered there was no need for a Neill or a Reynold to be present. The queen of the kitchen as well as the household was there and faithfully did she see to it that every portion of "Sir Swine" was thoroughly cleansed, salted and stored away in the cool smokehouse to tempt the appetite when frost first began to appear. The good old North Carolina ham has been cheated of its place, but thanks to the recent investigation, it is again assuming its old time place, along with the North Carolina 'possum ad infinitum."

Hardly worth while to mention that savory dish of ham and eggs, and if anybody likes boiled ham and turnip "greens," he gets the best when a good chunk of North Carolina ham is dropped into the pot and boiled till it comes to pieces.

KEELEY CURE IS ALL RIGHT

Victim of Drink Habit Who Took It at Greensboro Says It Is Permanent.

The Keeley Institute, Greensboro, N C.

I have been thinking for some time I would write to you and thank you for your kind treatment, and express my feelings in regard to the benefits received from the Keeley Treatment. When I commenced taking the Cure I only weighed 135 pounds, my health was very bad indeed. Now I weigh 165 pounds and am in better health than I ever was. I would not take any amount of money for what it has done for me. I can safely say there is no man, no matter how long the drink habit has had him down, but what the treatment will indeed make a new man of him, and the benefits are permanent if he so desires.

IMMIGRATION AND COTTON PRODUCTION.

The Star has time and again advocated good prices for cotton so we can pay better prices for labor, and thus secure better labor and make the South more attractive for high class labor. The fact is the increased cost of labor has made better prices for cotton imperitive, and that is patent to all who keep up with the cotton situation. Here is a practical editorial from the Savannah News on this subject:

"The Southern Immigration Commission was surprised to learn on the occasion of its visit to the immigration station at Ellis Island on Tuesday, that immigrants, on their arrival, have already settled upon the section of country to which they will go. The commission was under the impression that immigrants were induced, after their arrival, to stay in the East or go West.

"An immigrant commissioner told the Southern Imigration Commission that if any one should undertake to influence these immigrants to go South they would look upon him as a bunco steerer. He further said that if the South wants to get a part of the immigration arriving in this country she must pay as good wages as are paid in the North, and must let the fact be known that she does.

"It is probable that just as good wages are paid in the South as in the North to all classes of laborers except farm laborers, and it is a question if at the present time better wages are paid by Northern than by Southern farmers. It is a fact, of course, that the farmers of the South are paying their hands much better now than they did several years ago. This is due, of course, to the growing scarcity of labor.

"In this connection the statement made by Representative Ellerbee of South Carolina, on the floor of the House on Tuesday is of special interest. He said that on account of the increase in the cost of labor he couldn't afford to grow cotton for less than 9 1-2 cents a pound—that is, he couldn't cultivate and harvest the cotton for a less price than that if he kept his family in comfort.

"It is clear from the foregoing that if the South wants foreign laborers she will have to pay them what they can get at the North, and if she pays them such high wages she cannot, at a profit, furnish the world with cotton for less than 9 or 9 1-2 cents a pound at the farms. It looks, therefore, as if we should never again see 5-cent cotton. With the increase in the cost of labor it canont be produced for that price. It is doubtful if there is any profit in cotton at 8 cents at the farms. When the price falls below 8 cents it is probable that we shall see a very great decrease in the cotton acreage."

CURRENT COMMENT.

—It is no secret, either, that those elegant green peas are colored artificially.—Chicago Tribune.

—If things keep up, at the present rate, there will soon be a scramble for seats on the Bryan band-wagon.—Winston-Salem Sentinel.

—Mr. Edison's report that he has found cobalt in abundance in Gaston, Lincoln and Cleveland counties, means that he proposes opening mining operations, and that means the opening of a new industry and a new source of wealth for the counties named.—Charlotte Chronicle.

—The contumacity of the trusts is something remarkable. Both the Standard Oil Company and the beef packing concerns have dared to talk back at President Roosevelt and the coal producers actually furnished bad fuel to the steamship on which Mr. and Mrs. Longsworth made the passage to Europe.—Charleston Post.

—It is said that the recent speech of Senator Simmons on immigration was one of the very best delivered on that subject. Since he has been in the Senate Mr. Simmons has taken a prominent part in the discussions on immigration and few members of that body, it is said, have more exact information on the subject.—Winston-Salem Sentinel.

—It is said that Speaker Cannon favors the meat inspection bill. Also, the pure food bill. As no legislation can be done by the house without this one man's approval the prospect of the passage of both of these bills is good. Since it is practically a fact, why not state the preamble of every act this way: "Be it enacted by the Senate and the speaker in Congress assembled that ,etc."—Columbia Record.

—Here is the story of an engineer who was awarded damages in court on account of injuries received in a railroad accident, although it was shown to the jury that he had joined a relief association composed of members of the company, and in so doing had signed an agreement in which he forfeited all right to sue for damages upon payment of certain weekly indemnity for any injuries he might receive, regardless of whether the company was negligent or not. This is only another demonstration that a man cannot sign away his rights as a citizen.—Raleigh Times.

—Somebody points with pride to the alleged fact that club women seldom get divorced. Of course not. The club woman needs a husband to buy new gowns and pay club dues.—Somerville Journal.

—There are relatively more Cubans on Key West than there are Americans on the Isle of Pines. But we wouldn't be willing to cede Key West to Cuba on that account.—Savannah News.

—The Hon. E. Spencer Blackburn is doomed. The action of the Democrats of the eighth district in nominating Mr. Richard N. Hackett, means the death knell to Blackburn's greatness. Even Republicans attending Federal court here admit that the nomination of Hockett means the absolute and overwhelming defeat of "The drummer boy." The convention at Statesville to-day was noted for its harmony and unity of preference. All the competitive candidates gracefully withdrew from the contest, leaving Mr. Hackett alone. It took the convention only a short while to unanimously nominate him as the candidate of their choice for Congress. The forces are united and this fact means glorious and certain victory.—Charlotte News.

—Mephistopheles—There's a bad smell around here somewhere. Dead Devil—Just the usual sulphurous gas, your satanic majesty. Nothing else. Mephistopheles—Yes, there is, too; I tell you. There! There it is! Tell that young fellow over in the corner to quit smoking cigarettes.—Somerville Journal.

—"Yes, ma'am," said the salesman, "an establishment like ours has its own literary staff. Here, for example, is an 'Ode to our Furniture Polish,' written by our own poet and set to music by our own musician." "An ode to furniture, polish!" exclaimed Miss Peekay-Booh. "Why, that would be just the thing to take home and try on the piano!"—Chicago Tribune.

—Laurinburg correspondence: The many friends at this place of Rev. Harry M. North are greatly pleased to hear of his election to the position of head master of Trinity Park School. He is a capital young man and will certainly make good in his new position.

—Fayetteville special, June 12: Mr. F. R. Rose, secretary of the Chamber of Commerce, has been in correspondence with the officials of the Atlantic Coast Line Railroad, looking to the establishment of a down-town railroad office, where tickets can be purchased and information obtainable on all matters pertaining to passenger transportations. The upper Hay street station is a full half mile from the business center of the city.

—The Commercial Law League of America will meet in Asheville this year in twelfth annual convention. The sessions of the convention will be held at Battery Park Hotel from Monday, July 30, to August 2, inclusive. It is expected that between 400 and 500 members will be in attendance from every part of the United States and that, in addition, many other visitors will be in its humane work.

—In Raleigh Tuesday night, Herman, the 19 months old child of Mr. and Mrs. Julian C. Beavers, met a horrible death, having been buried so badly that he died in a short while. His mother went to a neighbor and left the child with a negro girl nurse, but it seems that the nurse left the child in the house where there was a fire in the fireplace. His clothing caught fire and when the nurse reached him he was wrapped in flames.

—At the convention of the Sixth Judicial District at Lillington on Tuesday Hon. Armistead Jones, of Raleigh, was renominated for solicitor by a rising and unanimous vote. The convention unanimously adopted a resolution endorsing Senator Simmons. The following district executive committee was chosen: W. C. Monroe, of Goldsboro, chairman; W. M. Sanders, of Smithfield, C. M. Muse, of Lillington and W. B. Jones, of Raleigh.

—Winston-Salem special, June 12: Winston is to take a peep into the manner in which her butchering is conducted, just like Uncle Sam is doing in the great stock yards of the country. And this is well, for the health of the citizens of every city and town depends, in a large measure, upon the food that is offered for sale. While it is not charged that there is anything wrong in the manner of conducting the slaughter houses of the city butchers, the aldermen have just appointed a committee to investigate. A physician of the city was heard to remark that the milk offered for sale in the city should be inspected occasionally, as no harm could be done by doing so and it might prove an interesting factor in maintaining the city's fine health record.

—Charlotte Observer: Col. W. H. Osborn, president of the North Carolina Children's Home Society, has issued his report for the fiscal year ended May 31st. This society was organized in the autumn of 1903. It has the State for its field and its headquarters are at Greensboro. It received its first child October 12th, 1903, and has received from the beginning 147. There have been placed 136 and there are 11 on hand. There have been contributed and expended since the beginning, $14,857.16. All contributions are of course voluntary and the society has no other resources. It is doing a good work in finding suitable homes for small children and deserves support and encouragement in its human work.

—Richmond dispatch, June 12: Out of work, money, and a stranger in Richmond, James Kendrick, of Durham, N. C., evidently of good family and who knows a number of prominent Richmond ministers took bichloride of mercury tablets this morning and would have died but for the work of Dr. Hudgins of the ambulance corps. Kendrick was picked up on the street as a suspicious character and, shortly after being locked up, was taken with convulsions. The ambulance responded promptly to the call and Dr. Hudgins, with his stomach pump saved the man's life. This afternoon Dr. Hudgins said the man's nerves were shattered, probably from exposure and drinking. The man came from Washington to look for work. He refuses to talk about himself, except to say that he is personally acquainted with a number of prominent ministers here.

—Washington correspondence Charlotte Observer: Senator Simmons, the official head of the Democracy in the Old North State by reason of his position as State chairman, is watching with keen interest the rising tide that promises to make William Jennings Bryan the Democratic nominee for President in 1908. In fact, Mr. Simmons to-day declared himself in favor of Bryan and, like Col. Watterson, entertains the while the very "liveliest and largest hope." The North Carolina Senator looked with favor upon the candidacy of Judge Parker when the campaign came on two years ago, but today he authorized a statement of his belief that conditions now point to the wisdom of nominating the Nebraskan. He says that Bryan and Aycock would be about the right thing, and he believes that Mr. Bryan and North Carolina's former chief executive would make a combination that would appeal powerfully to the country.

—Wadesboro correspondence: It was reported here Saturday that Mr. J. F. Dunn, better known as Bud Dunn, had been shot and killed by some unknown person on the public road between Standback's bridge and Powelton. It seems, however, that he lay down by the roadside and, it is supposed, died of heart failure. Mr. Dunn went to Mount Gilead early Friday morning. When he left home he told his wife that he was going to die. He had been drinking very hard for years prior to his death, but it was said that he had nothing to drink that week. Dunn's little girl had been visiting a friend near Mount Gilead. On his way home he got her and took her with him. When some distance from town he ran into the house of Willis Deaton and begged him not to let his, Dunn's brother Tom shoot him. His brother Tom was, at that time, at work in the field at his home. After becoming quiet Dunn started home again, but when he came to a point about four miles from Mount Gilead he laid down by the roadside and his little daughter, thinking he wanted to rest, sat down and stayed with him until he was found next morning by a searching party. When told that her father was dead she ran off some distance into the woods. Deceased was about 35 years of age, a son of Mr. Billy Dunn, and leaves a wife and three little children.

—Fayetteville correspondence: One of the pleasantest as well as most striking and impressive meetings of old Southern soldiers held in Cumberland county since the civil war took place yesterday when Camp No. 852, United Confederate Veterans, with other soldiers and guests, in the celebration of the battle of Bethel, fought on Yorktown peninsula on the 10th of June, 1861, enjoyed the hospitality of Hon. J. G. Shaw at his country home, "Summer Time," three or four miles west of town. The veterans enjoyed a banquet and held a reminiscence meeting. Hon. J. G. Shaw, the host of the day, spoke briefly of the honor which had been accorded to him of grasping in hospitable greeting the hands of men who had fought as no other men had fought in the world's history. He was followed by excellent speeches from Capt. J. H. Currie, Mr. J. W. Atkinson, Col. F. W. Kerchner, Maj. A. A. McKethan, who entered the service under 16 years of age; Mr. E. W. Nalleg, who was a soldier little over 15 years of age; Rev. F. O. Salmon and Capt. D. H. Graves, an officer in the Federal army during the Civil War, but has lived for many years in North Carolina. His speech was brief but in most admirable taste and spirit. He has been to many of these Confederate reunions in Cumberland county, and no one is ever more welcome than he.

CURE YOUR KIDNEYS

Do Not Endanger Life When a Wilmington Citizen Shows You the Cure.

Why will people continue to suffer the agonies of kidney complaint, backache, urinary disorders, lameness, headaches, languor, why allow themselves to become chronic invalids, when a certain cure is offered them?

Doan's Kidney Pills is the remedy to use, because it gives to the kidneys the help they need to perform their work.

If you have any, even one, of the symptons of kidney disease, cure yourself now, before diabetes, dropsy or Bright's disease sets in. Read this Wilmington testimony:

B. R. King, the well-known policeman, of Wilmington, residing at 706 Wooster streets, says: "I had terrible pain in my back which worked around to my side and in my stomach, so bad at times that it laid me up. I used internal medicines and they did not help me. I put on plasters and rubbed with liniment, and none of them helped me at all. Seeing Doan's Kidney Pills recommended I got a box of them at Bellamy's drug stone. The next day after commencing to use them I noticed relief. Since using two boxes of them I have not had an ache or a pain in my back. It is with pleasure that I add my name to those endorsing the claims made for this remedy."

"CAMILLE" TO-NIGHT'S BILL.

Mr. Chauncey L. Southern and Company in an Old Favorite.

A good-sized audience greeted Mr. Chauncey L. Southern and his excellent company in "Dr. Jekyll and Mr. Hyde" at the Academy of Music last night. The piece was produced in a careful, painstaking manner and each member of the cast contributed a full share to the success of the evening's bill. Mr. Southern in the lead was good and has a fine conception of the part. Although greatly handicapped by a series of misfortunes, the company has gone forward with a conscientiousness and spirit that have won the hearts of patrons of the house during the week.

To-night the company will present "Camille" with Miss Mabel VanTaessel in the title role. Miss VanTaessel has just recovered from a severe attack of appendicitis, but loyally returns to the company at the earliest moment, appreciating the handicap under which her associates have been working. In "Camille" patrons of the house may look for something good.

SALE OF WRECKAGE.

Effects of Ill-Fated Myrtle Tunnell Sold at Auction.

Under an order of the United States Court, the wreckage recently brought into this port from the ill-fated schooner Myrtle Tunnell by the Revenue Cutter Seminole and subsequently libelled by the owners of the steam tug Blanche, was sold yesterday at auction by U. S. Marshal Claudius Dockery, the auctioneer having been Mr. A. H. Morris. The property was bought in by Capt J. F. O'Brien, of Savannah, one of the owners in the Propeller Tow Boat Company, of that city, which assisted with the towing of the Tunnell into Charleston. The sails brought $900; the rope, $245; the chairs, $39; the compass, signals, etc., $61; the small boats, $60 and $100 respectively. The sale is of course subject to the confirmation of the court Mr. Dockery, who came down from Raleigh to make the sale, leaves this morning for a trip up the Carolina Central railroad.

REAL ESTATE TRANSFERS.

Deeds Which Appear From the Record Filed Yesterday.

Samuel Blossom and wife to R. M. Sheppard, for $10 and other considerations, sixteen acres of land in Cape Fear township, on the west side of the W. & W. railroad, 3,109 feet south of the 9-mile post.

R. M. Sheppard to the Carolina Real Estate trust Co., for $10 and other considerations, property described above.

Charles G. Williams to Solomon Sternberger, for $100, twenty-four acres of land in Harnett township.

BURKHEIMER-BOWDEN.

Young People of This City Plighted Their Troth.

As quite a surprise to a number of friends in this city will come the announcement of the marriage of Miss Hattie B. Burkheimer and Mr. Robert H. Bowden, both popular young people of this city. The ceremony was performed quietly Monday evening at the home of the bride's mother, Mrs. Benjamin C. Bowden, of Kenansville, where the bride was visiting at the time. Mr. and Mrs. Bowden will spend some time at Kenansville, returning to this city where they will make their home in the future.

Delgado Primary Officers.

Chairman James H. Burriss, of the County Democratic Executive Committee, announces that in the primary to be held September 19th, there will be a polling place at Delgado. He has appointed as officers there A. G. Call, registrar; Bishop Weaver, poll-holder, and R. O. Butler, judge of election. No provision for a precinct at Delgado was made when the others were arranged by the Executive Committee some time ago.

MATTER OF MARINE HOSPITAL

Senator Simmons Telegraphs That He Will Apepal to Secretary Shaw—Information Furnished Him.

President J. A. Taylor, of the Chamber of Commerce, yesterday received a telegram from Senator Simmons in reply to the one forwarded Monday by President Taylor in regard to the Marine Hospital matter. Mr. Simmons expressed himself in every way in sympathy with the movement to get the order closing the hospital revoked and there is a faint hope that he will be successful. In reply to the telegram of Mr. Simmons, Mr. Taylor mailed the following letter yesterday afternoon:

June 13th, 1906.

Hon F. M. Simmons, Senate Chamber, Washington, D. C.

Dear Sir: I beg to acknowledge your telegram of this date advising that Surgeon General Wyman is helpless in the hospital matter, but that you will see Secretary Shaw on his return to Washington Friday next.

For your further information beg to say that the Department instructed the local authorities here to invite proposals for care of marine patients, and that our city hospital declined to make any proposal. We have only one local hospital, and the demand is normally in excess of the capacity. Under the circumstances it would seem an inexcusable hardship for the marine hospital to be closed. Of course private parties would not accommodate contagious diseases, because cases of this kind are rigidly quarantined. I think this view of the matter ought to appeal to Secretary Shaw, and induce him to reconsider his order.

I thank you for your prompt action and interest in our behalf, and hope that your efforts will avail to accomplish our desire. Yours very truly,

J. A. TAYLOR,
President.

It is expected that Mr. Simmons will make immediate use of the information furnished him by Mr. Taylor and further advices are eagerly awaited by those who have the interest of the port at heart.

MEETING OF SHRINERS HERE.

Great Preparation Are Being Made For Special Conclave.

Elaborate arrangements are under way for the special conclave of Shriners at Wrightsville Beach on Friday, June 29th., mention of which was made in these columns at length a few days ago. It is expected that there will be fully three hundred prominent Masons from the Carolinas here for the occasion and the local members of the order are preparing to give them a cordial welcome. One of the features will be an elaborate banquet at the Hotel Tarrymoore at which covers will be laid for about 350. Mr. W. A. French, Jr., is chairman of the local committee of arrangements and is quite enthusiastic in speaking of the forthcoming event.

Stealing Dog Badges.

A number of complaints have reached the police that dog badges are being stolen from the collars of canines that are friendly in their nature and are susceptible of being caught and fondled by strangers. If any badges are offered for sale by any person other than the City Clerk and Treasurer the information will be thankfully received at the police station. Constable Savage has also received complaints in this respect and yesterday upon the affidavit of another negro arrested Geadie Mabson and his brother charging them with larceny in that they took a badge off a dog belonging to the prosecutor. The case will come up before Justice Furlong to-day.

Will Hang in the Jail.

United States Marshal Claudius Dockery, of Raliegh, who was here yesterday to conduct the sale of wreckage from the schooner Myrtle Tunnell, said that without a doubt the hanging of the mutineers in prison here would take place in the jail. Henry Scott is appointed to die on Friday, July 6th, and the Federal Court will convene next week for the purpose of re-sentencing Adams and Sawyer, their apepal to the United States Supreme Court having availed them nothing.

Prisoner is Sick.

James E. Jackson, the colored man from this city who was recently convicted and sentenced to a term in the jail here by Judge Purnell, of the Federal Court, is said to be quite sick and will probably not live much longer, as he has consumption in violent form. His sentence has just expired and as soon as he can take the oath of insolvency to escape further imprisonment to pay the costs, he will be released. It is said to be doubtful, however, if he will be able to leave the jail.

Two Vessels Arrived Yesterday.

The British Steamer Glenwood, from Huelva, arrived yesterday with cargo of pyrites for the Navassa Guano Company. A part of it is being discharged at the warehouses of the upper compress. The schooner Nellie W. Craig, from New York, also arrived yesterday. She has cargo of cement for the Carolina Central warehouses and crushed stone for Roger Moore's Sons & Co.

—Raleigh News and Observer: "The many friends of Captain Swift Galloway will be glad to know that he has been nominated for the Legislature in Greene. He was the bravest of the brave in War and in Reconstruction. His warm heart, fervent patriotism and genial manner make him a universal favorite."

—Friends in this city through the medium of a letter received yesterday will be pleased to know that the health of Mr. Chas. H. King, who recently left Wilmington to live at Ridgefield, N. J., is much improved. Mr. King writes that he misses "the good old town," but keeps pretty well in touch with happenings here by the daily arrival of the "Morning Glory."

Dredge Boat for Cape Fear.

Fayetteville Observer: "A washington newspaper correspondent states that General McKenzie, chief of the engineer corps of the War Department, had a conversation yesterday with Congressman G. B. Patterson, in the course of which Gen. McKenzie stated that he would order the building of a dredge boat for the Cape Fear river, not to exceed $5.500 in cost. He also agreed to rush the purchase of sites for locks in the proposed canalization of the Cape Fear."

An Automobile Meet.

The Wilmington Automobile Club, recently organized, has a movement on foot for an automobile meet at Wrightsville Beach to take place some time this Summer. Plans are in embryo yet but the matter is receiving much attention and there appears little doubt but that the meet will be arranged. There may be several entries from out of the city.

Baltimore Steamer Doing Well.

Mr. Mason L. Weems Williams, general manager of the Baltimore & Carolina Steamship Company, spent yesterday in the city looking after the interest of the new line. He is well pleased with the outlook and is just now considering a petition from among the leading shipping men on the wharf asking that the company, if possible, secure a more centrally located wharf in this city. Mr. Williams hopes to make more satisfactory arrangements within a short time.

MEAT PACKING INSPECTION BILL

House Committee on Agriculture Will Report Measure in House To-day

COST FALLS ON GOVERNMENT

Secretary of Agriculture Will Appoint Inspectors to See That Establishments Are Sanitary and Meat Products Wholesome.

By Wire to The Morning Star.

Washington, June 13.—A meat inspection provision was completed by the House Committee on Agriculture to-night and will be presented to the House for action probably to-morrow, which, it is declared by the committee, will insure that American meats and meat products are healthful, clean, and in every respect wholesome and fit for food.

The important features of the legislation are that it places the cost of the inspection on the government and makes an annual automatic appropriation to pay the expense. It requires a government label as a passport for all meat and meat products which enter interstate commerce, and in addition to this label a certificate of purity of the carrier and to the Secretary of Agriculture for all such products which enter foreign commerce. To secure this label, the products must be handled in accordance with sanitary regulations to be prescribed by the Secretary of Agriculture, who is authorized to employ an adequate corps of efficient inspectors to supervise the enforcement of his regulations.

It prohibits the use of preservatives or chemicals which are deleterious to health and leaves the matter of determining this question to the Secretary of Agriculture. The label on the product is to indicate the ingredients, but the date of manufacture is not required to be stated.

The saitary requirements which the Secretary is to prescribe and enforce must insure complete sanitary conditions as to all buildings, whether slaughter houses of canning establishments.

There are penalty clauses attaching to violations of all these provisions. The common carrier is subject to a heavy penalty if he accepts for transportation any goods not bearing the government label or in case of foreign shipments, in addition to the label, not accompanied by the required certificate. The packers are subject to a heavy penalty for false labeling, as to contents of packages.

There is a special penalty against the bribery of inspectors, being imprisonment from one to three years and fine of from $1,000 to $10,000 for offering a bribe and the same punishment for the acceptance of a bribe on the part of inspectors. Farmers and small butchers are excepted from the operation of the regulations.

This conclusion of the committee was reached after three full days of consideration, following the exhaustive hearings on the official reports regarding conditions in the packing houses of Chicago.

The conclusion represents the judgment of nine members of the committee as against seven who preferred the Beveridge amendment slightly altered. A minority report will be made to the House by some of the members dissenting.

STILL PROBING THE RAILROADS

Concluded From Page Eight.

teered by Francis I. Gowen, counsel for the railroad company. Mr. Swartz's memory was uncertain, but after persistent questioning by Attorney Glasgow, he recollected that orders for private cars to be used, he believed, by the Keystone and the Berwind-White companies had been placed with the car building company. He did not know who paid for them, but Lawyer Gowen said it was in evidence that the Pennsylvnaia Railroad Company, having made the contract, was obligated for the cost. This information came as a surprise to Mr. Glasgow, who said the fact was not in evidence and that he had been trying to secure the information. On being assured by Mr. Gowen that payment for the cars was made to the railroad by the coal companies, Mr. Glasgow immediately asked that the vouchers be filed with the commission. It was learned from the witness that cars ordered in bulk by the railroad got the benefit of a special rate, but he was unable to say whether the coal companies profited by this arrangement.

Frederick MacOwen, treasurer of the Berwind-White Company, was recalled to-day, but professed almost entire ignorance of the business transactions of the company. Little or no information could be secured from him and his attitude, coupled with a interruption of Charles Heebner, counsel for the coal company, resulted in a lively tilt between counsel and elicited vigorous comment on the part of Commissioner Cockrell, who, with a shrug of his shoulders, declared it was useless to interrogate the witness.

E. B. Chase, sales agent for the Berwind-White Company, presented a statement of cars received at the Scalp Level operations of the company during 1903, which was found to be at variance with a table previously filled by the Pennsylvania Railroad. He was asked to examine them and inform the Commission later as to which is correct.

W. A. Guthrie, a mine operator, told the Commission, that when his representative applied at the office of General Manager Aterburg, of the Pennsylvania Railroad, for an order for Company fuel, he was told he could get it by paying to a clerk named Huff or Hoff in Mr. Atterbury's office an allowance of three cents a ton. He did not say who imposed the conditions. He reported the matter to Vice President Pugh, and secured the order without paying the allowance. Mr. Pugh at first discredited his story, the witness said.

Commissioner Clements announced to-day that the heads of the soft coal carrying roads had been instructed to appear before the commission when it meets in Washington on June 21.

Lawyer Heebner stated that E. J. Berwind, of the Berwind-White Company, will testify to-morrow.

ITALIAN TROUBLES IN CAROLINA.

Killing of Two Laborers in Mitchell County Being Investigated.

By Wire to the Morning Star.

Washington, June 13.—The Italian embassy has been advised of the killing of two Italian laborers and an assault on many other Italians in Mitchell county, North Carolina, which resulted in the flight of a large party of Italian railroad workers employed by the South and Western railroad. United States District Attorney Holton is co-operating with representatives of the Italian government in investigating the causes of the riot which resulted in the death of the two men. As the department of justice is active in looking into the trouble, the Italian embassy will not make any diplomatic representations pending the disposition of the matter by the Federal court at Asheville. It is rumored that the riot is the result of a plot on the part of Italians to murder an overseer.

APPEAL IN RAWLINGS CASE.

Georgia Murderers Get One More Chance for Lives.

By Wire to The Morning Star.

Macon, Ga., June 13.—John R. Cooper, attorney for J. G. Rawlings and his sons, Jesse and Milton, secured the signature of Judge Mitchell, of Lowndes Superior Court, to-day, to a bill of exceptions in an extraordinary motion for a new trial for the Rawlings boys and the fight for their lives goes back to the State Supreme Court. Attorney Cooper filed the appeal for a new trial for Milton and Jesse Rawlings on the ground that the father had confessed to having hired Alf. Moore to commit the crime for which all have been sentenced to death.

KING'S MOUNTAIN MONUMENT SAFE

Concluded From Page Eight.

sidering the question of the abolishment of the office of receivers of land offices, which proposed abolishment the House refused to sanction, the entire day was taken up with the consideration of the appropriation for the United States geological survey, members of the Appropriations Committee being exceedingly severe in their condemnation of the methods used by officials of the survey to secure increased sums for the various branches of the survey.

The House concurred in the Senate amendments to the bill to erect a monument at King's Mountain Battlefield, in North Carolina.

The diplomatic and consular appropriation bill was sent to conference.

The House also sent to conference the bill providing for the sub-division of lands entered under the reclamation act.

A BIG STOCK OF DRESS GOODS ON DISPLAY At GAYLORD'S DEPARTMENT STORE

THIS WEEK

FOR MONDAY we will have to show 1,000 yards of Irish Linen Finish 36-inch wide Madras in remnants from 1 1-2 yards to 5 yard pieces, quality worth from 12 1-2c. to 15c. per yard, our price is 9c. per yard.

ON TUESDAY We will show 1,200 yards of 40-inch wide Swiss Lawn running from 5 to 16 yards to a piece, all beautiful quality at 10c. per yard.

ON WEDNESDAY Will Show 15 patterns of white cloths for skirtings as well as cream. This is skirt novelties and would be really cheap at 25c. per yard. Goods to be sold on Wednesday of this week for 10c. and 12c. per yard.

ON THURSDAY Of this week we will place on sale at a special price, a line of mull house wash goods such as wool finish voiles and crepes, goods regularly at 25c. per yard; these goods were bought at half price and on Thursday will be 9 and 10c. per yard.

ON FRIDAY The dullest day of the week we will have 1,460 of Malvern Batiste which is a beautiful line of colored dress goods, goods that regularly bring 9c. to 10c. per yard, are pretty stylish colors. These to be sold at 6c. per yard.

ON SATURDAY We will have all the above on sale and many other specialties provided the lots have not been closed out at prices given for each day.

We have a line of colored Organdies called Organdie Francais at 10c. per yard. They are beautiful patterns.

In our Wash Goods Department, we are showing the strongest line for this season of the year that we have ever had. In fancy white mercerized goods and white piques, we are showing 25c. values for 15c. yard.

THE MILLINERY DEPARTMENT

In this Department we have been very busy. Our trade is very active and we are keeping our stock right up to the minute. We have just purchased this week, a line of beautiful sample hats, untrimmed, goods that are perfectly fresh and of beautiful styles and only one of a kind.

These Hats are on sale at just about wholesale cost.

To describe these hats would be almost impossible as there are three hundred of them and each a different style.

We have just received a splendid line of new Milan Sailors which we will have on sale Monday for $1.25 each.

Also a splendid line of Senate Braid Sailors. There hats were made to sell for $1.25 each; I am now able to offer them to you for 75c. each.

A new lot of made Chiffon Hats with horse-hair braid crowns at $1.25 each.

Received to-day 20 dozen White Violets; nice bunches of White Violets at 39c., 50c. and 58c.

A nice line of Children's and Misses Duck Hats, trimmed with a feather and silk ribbon, George Washington Style. These hats were made to retail for $1.00 each; I will have them in on Tuesday and will sell them for 50c. each.

LADIES' KIMONAS AND DRESSING SACKS——We have received this week a new line of Kimonas, Pretty Japanese colors. We have both short and long Kimonas from 75c. to $2.98 each.

SWEET ORR WORKING SHIRT——For the best shirt sold in the city try Gaylord's line of Sweet Orr Working Shirt. We have secured the agency for this line of goods and we carry a full line of sizes. The garments are each made perfect and they sell at sight. The price is only $1.00 each.

GAYLORD'S LINE OR WASH CLOTHING FOR BOYS AND WASH DRESSES FOR CIRLS.

This is a line of goods long sought by Mothers. The little suits and dresses are sold for less than you can have them made and the line is constantly increasing in sales every day.

We ask that should you be in need of this class of goods you will see our line.

Don't forget our line of muslin underwear. Remember we control the agency and the output of **THE ROYAL MUSLIN UNDERWEAR COMPANY.** There is no better house for underwear we think, in the United States, and we tried numbers of them before we tried this line. We have just received a nice new assortment to-day. The price is right, the goods correct and the sizes perfect.

Remember the special sales of this week. Each and every day has bargains to meet. You will not find our stock run down and desirable goods sold out. Our stock is complete in every department.

G. W. VANDERBILT'S GENEROUS DEED

Turned Over to Colored People of Asheville Property Worth $32,000 Requiring Only $10,000.

Asheville, June 12.—The turning over to the negro race of Asheville of the Young Men's Institute yesterday marked an important event in the affairs of the race in Asheville. The Y. M. I. was built by George W. Vandebilt for the negroes of Asheville 14 years ago at a cost of more than $32,000. It is located at the corner of Market and Valley streets and much good has been accomplished since its completion by the uplift of the race morally in this city. Since completing the institution Mr. Vanderbilt has met all deficits and has taken interest in its affairs and likewise the moral improvement of the negroes. Last November, however, Mr. Vanderbilt felt that greater good could be accomplished to the race by allowing the negroes to manage their own affairs and, through Dr. R. R. Swope, informed those in charge of the institute and closely inedtified with the work that, after May 1, 1906, he would no longer stand sponsor for the management of the institute or its debts, but that he would sell the property to the negroes for $12,000. By this move it was the purpose of the benefactor to impose responsibility upon the race and allow them to conduct and manage their own affairs.

The raising of the necessary $12,000 seemed an almost impossibility for the negroes but they set about the task, determined to prove themselves equal to the emergency, and in a large measure they have been successful. On May 1 they raised $2,300 on the purchase price. The owner of the Y. M. I. recognizing the effort that had been made, thereupon reduced the price to $10,000. This sum was yesterday paid over to the Biltmore estate and the Y. M. I., which is now incorporated under the laws of North Carolina with more than 50 incorporators, to-day stands the property of the negro race in Asheville.

A STOLEN STATE LINE MARK.

The Lake Michigan end of the state line between Indiana and Illinois has been lost or stolen, and the police of two states are hunting for it. The mark for years has been a stone at One Hundred and Eighth street and Indianapolis avenue. On one side was cut the word "Indiana" and on the other "Illinois."

The stone was four feet long and two feet high, one and a half feet projecting above the ground. Not only has it been removed, but the hole from which it was taken has been filled, so no one can tell exactly where it stood. The police believe some householder, more thrifty than honest, has imbedded the stone in the foundation of a residence or used it as a base for a lawn flower pot.

The next boundary stone is five miles inland, and a survey will have to be made from that point before the place for a new Lake Michigan mark can be established.—Chicago Tribune.

The African Machilla.

In a recently published book on central Africa H. L. Duff says: "The principal means of conveyance all over the Nyasaland and the Shire districts is the machilla, or hammock, a simple contrivance of canvas and bamboo carried on the shoulders of natives. An average machilla team for a fairly long journey may consist of from fifteen to twenty men, and if these are up to their work and have good roads before them they will travel at a very creditable rate indeed and will cover thirty or forty miles without difficulty between dawn and dusk. As a rule the machilla is carried by only two men at a time, one at each end of the pole, the remainder trotting behind and relieving the carriers at intervals of ten minutes or so. The whole team as it speeds keeps up a constant chorus, varying from mere individual yells to actual songs of regular beat and rhythm."

Strange Pets on Warships.

The privilege of keeping pets is very much appreciated by bluejackets, who lavish their spare time and cash on some very strange animals. The Centurion once had a monkey that used to eat with a spoon from a plate and drink from a glass, with a dinner napkin tucked under his chin the while. The Caesar had a pet goose some time back. Cats and dogs of course are common on board ship. The French warship Marceau had a bantam cock named Boulanger as a pet which crowed whenever the guns were fired. The German Prins Wilhelm had a gray stork, and the United States Chicago had a pig. Doves, pigeons, blackbirds and peacocks are popular with Italian seamen, and the unfortunate Almirante Oquendo of Spain had a pair of cassowaries as pets.—London Tit-Bits.

LECTURE TOUR BY MR. TILLMAN

Will Campaign Awhile in South Carolina and Then Go West to Talk Race Question.

(Columbia Record.)

Washington, June 11.—Senator Tillman will begin his South Carolina campaign July 7, at Sandy Flat, Greenville county, and will be at all of the regular State campaign meetings until August, after which time he will be gone from the State more or less until late in the Fall. He has made contracts to deliver lectures in different parts of the United States that will occupy practically all of his time from then on until Winter. These lectures will begin with that at Patterson Springs, Ill., on July 4. It is his purpose to go there on the day named whether Congress has adjourned or not. He believes, however that a final adjournment will be had by July 1.

Discussing the matter of his contracts today Senator Tillman said that he expected to make as much out of them as he would out of his salary, and that after he left the regular campaign party in August he would not be able to join it again. The Western States will be the chief places that Senator Tillman will visit during the Summer and Fall.

Senator Tillman will leave Washington the second or third of July for Patterson Springs, Ill., to address the people of that place on the race problem. He has both that subject and the railroad rate question in mind, but he thinks it probable that the first mentioned subject would be more entertaining to the people of Illinois than the latter and will doubtless speak to them on that subject.

Senator Tillman's speeches heretofore on the race question have drawn large crowds. He has delivered many such in different sections of the North and West and wherever he has gone he has met large audiences.

Big Excursion to Raleigh June 25th

Thomas H. Knight, the manager of popular excursions, will run an excursion to Raleigh, via the fast and elegant Atlantic Coast Line, on Monday June 25th. This is the excursion treat of the year, and will be the only excursion to our beautiful Capital City this year. Raleigh is a city of great historic interest, presenting at every turn views of the picturesque, the beautiful and the grand, sufficient for the gratification of every taste. An excursion to Raleigh is always looked forward to with eager anticipation and remembered with sincere pleasure. Tickets good for one day will be $1.75 good to return on special train leaving Raleigh same night at 12 o'clock.

Tickets for two days $2.25, good on any regular Southern Railway train leaving Raleigh on Tuesday, June 26th. If you are going on an excursion, go somewhere. This is an opportunity that will not be repeated soon.

There will be separate cars for white and colored people. Passengers will be taken on at all stations South of Goldsboro.

THE COTTON MARKETS.

New York, June 13.—The cotton market to-day was nervous and unsettled with the close steady, but at a net decline of 10@15 points. Sales for the day were estimated at 100,000 bales.

The opening was steady at a decline of 2@4 points in response to lower cables and prices almost immediately increased the loss to a matter of 5@10 points with July leading the decline under liquidation and bear pressure. Recent buyers for an advance in anticipation that the market would begin to discount an unfavorable turn in the weather were evidently disappointed at the continued absence of outside support. At the decline mentioned, however, coverings of shorts on reports of excessive rains in the eastern belt ranging up as high as seven inches in one section caused a rally of 3 or 4 points, but as soon as this demand was filled the market eased off again and late trading was very weak under increased liquidation and bear pressure. The close was within a point or two of the lowest.

Receipts cotton at the ports to-day 1,412 bales against 8,548 last week and 4,200 last year. For the week 40,000 against 55,110 last week and 80,376 last year. To-day's receipts at New Orleans 746 bales against 4,453 last year and at Houston 1,234 bales against 2,211 last year.

Spot cotton closed quiet 5 points decline; middling uplands, 11.20; middling gulf, 11.45; sales, 350 bales.

Futures closed steady.

TO KILL THE DANDRUFF GERM.

Is the Only Possible Way of Having An Effective Cure.

If you see a woman or a man with luxuriant glossy hair, you may be sure neither has dandruff to amount to anything. In nearly every case where women and men have thin brittle hair, they owe it to dandruff. There are hundreds of preparations that "claim" to cure dandruff, but not one but Newbro's Herpicide tells you that dandruff is the result of a germ burrowing into the scalp, and that permanent cure of dandruff and its consequent falling and baldness, can only be had by killing the germ; and there is no other preparation that will destroy that germ but Newbro's Herpicide. "Destroy the cause, and you remove the effect." Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

WILLIAM J. BRYAN VISITS RUSSIA

Will Take in Parliament and Study Political Struggle at Close Range

OUR EMBASSADOR'S GUEST

Will Witness Coronation of Norway's King—Endorses Gov. Cummins' Meeting of Governors—William J. Bryan, Jr., Talks.

By Cable to The Morning Star.

St. Petersburg, June 13.—William J. Bryan and Mrs. Bryan arrived here to-day from Berlin. They will remain here until Friday when they will leave for Stockholm and Christiana on their way to London, where Mr. Bryan will deliver an address on the Fourth of July. He expects to witness the coronation of King Haakon at Christiana and is due to arrived at New York, August 29th.

Mr. Bryan came to St. Petersburg in order to get a glimpse of the Russian parliament and study at close range the epoch-making political struggle which is convulsing Russian. He has arranged to visit the House tomorrow and confer with the leaders of the popular movement. To-day Mr. and Mrs. Bryan were the guests at luncheon at the Klein Michel Palace, of Ambassador and Mrs. Meyer.

Mr. Bryan expressed his full endorsement of the plan of Governor Cummins, of Iowa, for a meeting of the governor of States to secure concerted action looking to a constitutional amendment providing for the election of Senators by the direct vote.

Son of His Father.

New York, July 13.—William J. Bryan, Jr., arrived here to-day from Bremen, after having accompanied his father on his travels.

"I was surprised," said young Bryan, "to find how well my father was known wherever we traveled. They knew about him even in the wilds of India and in China. They knew, too, that he had never been President, but that he had run."

In view of the practical certainty that no vote could be had on the Senator Smoot case at the present session, Chairman Burrows, chairman of the Senate Committee on Privileges and elections, after conferences with friends and opponents of the Utah Senator has decided that he will not call up the case for consideration until next session.

KENTUCKY FEUD IS THREATENING

Sensation Caused By Confession of Curtiss Jett Concerning Three Murders

IMPLICATE PROMINENT MEN

Says He Murdered James B. Marcum—Elbert Hargis and Sheriff Callahan Arrested on Strength of His Confession.

By Wire to The Morning Star.

Louisville, June 13.—The Courier-Journal to-day in a dispatch from Cynthiana, Ky., prints the confession of Curtis Jett, which gives the alleged details of the assassinations of James B. Marcum and James Cockrill, and also throws new light on the murder of Dr. B. D. Cox, the three crimes having been committed during the reign of feudism in Breathitt county. The confession is authorized by Jett's attorneys.

Jett says he, John Smith and John Abner killed James Cockrill, and Robert Deaton went after Abner and Smith to aid in the murder and that Elbert Hargis, James Hargis, Ed. Callahan, Jesse Spicer and Bill Britton are the men who formed the conspiracy. He then confessed to the murder of James B. Marcum, which he says, was at the instance of James Hargis and Ed. Callahan.

Jett's statement in regard to the assassination of Dr. Cox is little less sensational than his assertions in regard to the other murders. He says he was at the jail and heard three shots, after which the telephone rang. He went to Alex. Hargis' house and Hargis asked what the shooting was. Together they went to Jim Hargis' house, where in the shadow of the smoke house stood Ed. Callahan, Jim Hargis, Bill Britton, Jesse Spicer and Elbert Hargis, with two shot guns.

Great Excitement in Jackson.

Jackson, Ky., June 13.—Former Sheriff Edward Callahan and Elbert Hargis were arrested here to-day on the charge of murdering B. D. Cox several years ago. Callahan and Hargis were mentioned in the confession of Curtis Jett. There is intense excitement over the arrests of some profess to fear an outbreak. Judge Hargis was brought into court on a motion for bail. There is a great crowd in Jackson, attracted by the appearance of Curtis Jett who is to testify against Hargis.

Interstate Commerce Commission Picks Up Unexpected Information

ONE GRAFT GAME FAILED

Employe of Pennsylvania Railroad Demanded Three Cents Ton on Orders for Coal—Railroads Offered Chance to Defend.

By Wire to The Morning Star.

Philadelphia, June 13.—When the Interstate Commerce Commission resumed its sessions to-day Commissioner Clements announced that the Commission would sit in Washington on June 21st when the railroad companies which have been under investigation will be permitted to make any statement or present any defence they may desire. Previous to the opening of the session, the Commissioners telegraphed their secretary at Washington to forward official notification to the railroad presidents. The appearance of these officials is optional as no subpoenas will be issued. The presidents invited to attend the Washington hearing are: A. J. Cassatt, Pennsylvania Railroad; Oscar G. Murray, Baltimore and Ohio Railroad; L. E. Johnson. Norfolk and Western Railroad; George W. Stevens, Chesapeake and Ohio Railroad; W. H. Newman, New York Central lines and A. G. Yates, Buffalo, Rochester and Pittsburg Railroad.

The membership of the executive committee of the Norfolk and Western Railroad as furnished the commission by the secretary of the company is as follows:

Samuel Rae and J. B. Thayer, of the Pennsylvania Railroad; L. E. Johnson, president of the Norfolk and Western; Henry Fink, chairman of the Norfolk and Western; Victor Morawetz, chairmand of the executive committee of the Atchison, Topeka and Santa Fe Railroad.

Orders for private cars to be used by independent coal mining companies were placed with the Pressed Steel Car Company by the Pennsylvania Railroad Company, and paid for by that corporation, which, afterward had a settlement with the coal companies. This fact was established at to-day's session of the Interstate Commerce Commission through the testimony of H. E. Swartz, chief clerk of the sales department of the Pressed Steel Car Company, and by information volun-

House of Representatives Agrees to Senate Amendment for Appropriation

PARTISAN STATEHOOD BILL

Hot Debate in Senate Over It—Democrats Denounce Formation of State of Oklahoma as Favorable to Republican Party.

By Wire to the Morning Star.

Washington, June 13.—The Senate adopted without diversion the conference report on the statehood bill at 6:20 o'clock this evening.

The report was debated by Senators Foraker, Bailey, Patterson, Money, DuBois, Morgan, Stone, McCumber and others. Several Democratic Senators intimated that the consolidation of Oklahoma and Indian Territory would inure to the advantage of the Republican party, and Mr. Money declared that such was the intent and charged further that the legislation is influenced by sectionalism. He declared that one Western man is equal in all the qualities of manhood to five eastern men.

Senator DuBois announced his intention to vote against the acceptance of the report because of the omission of the anti-polygamy provision inserted by the Senate and in doing so he took occasion in review his own political experience in dealing with the Mormons, saying that he knew that his stand on the question would result in his enforced retirement from the Senate.

The Senate also listened during the day to an argument by Senator Millard in opposition to the sea-level Panama canal bill and also to further debate on the Lake Erie and Ohio river canal bill which was not acted upon.

The conference report on the national quarantine bill was adopted by the Senate. As the bill had hitherto been accepted by the House it will now go to the President.

The House.

Washington, June 13.—There was a round of applause from both sides of the chamber when Mr. Hamilton, of Michigan, reported to the House today that the conferees on the statehood bill had reached an agreement and asked that it be printed in the record.

The day was spent on the sundry civil appropriation bill, and with the exception of an hour occupied in con-

MARYLAND LYNCHERS FOILED BY TROOPS

Negro Who Committed Awful Crime in Kingston, Md., Safe in Jail at Norfolk—Brute Confessed to Virginia Officer.

By Wire to The Morning Star.

Norfolk, Va., June 13.—The negro William Lee, charged with criminal assault on Mrs. Robert Barns and her cousin, Miss Frances Powell, of Kingston, Somerset county, Maryland, was brought safely to Norfolk this morning by the Norfolk and Portsmouth troops who were hurried to Eastville, Va., yesterday by order order of Governor Swanson to prevent Lee being lynched by the angry Marylanders who had come to Eastville from the scene of the crime.

Lee was committed to the Norfolk city jail. He told an Associated made a confession to Deputy Sheriff Charles Lankford, of Northampton County, Va., who accompanied the prisoner from Eastville to Norfolk. The negro admitted the assault on Mrs. Barns and to making an unsuccessful attempt to assault Miss Powell. Lee said he was not from Portsmouth Va., but that his home was in York county, Virginia.

Governor Swanson, at Richmond, has sent the following message to Governor Warfield:

Richmond, Va. June 12, 1906.

"Hon. Edwin Warfield, Governor,
Annapolis, Md.

"The negro Lee, arrested in this state for criminal assault committed in your state, is held in the Norfolk jail subject to your order and I will be glad to hear your wishes in the matter. (Signed)
Governor."

But for the prompt action of Governor Swanson in calling out the militia and the timely arrival of the troops in Eastville, Lee would almost certainly have been lynched. The Marylanders have returned to their homes in Somerset and the excitement in Eastville has largely subsided. The excitement in Somerset however, is still great. The militia escort has been disbanded. It consisted of 165 officers and men.

Richmond, Va., June 13.—Governor Swanson to-day received a telegram from Governor Warfield, of Maryland, thanking him for his prompt action in the matter of the capture of the negro William Lee, accused of criminal assault on two young women of Somerset county, Maryland, Sunday, who was arrested Monday at Cape Charles and whom a Maryland mob attempted to lynch last night, and asking the Governor to hold the prisoner pending the arrival of sheriff of Somerset county, the proper requisition papers which will be issued to-morrow. Nothing is said in the telegram about provision of a military escort to prevent possible lynching of the prisoner.

HOMICIDE IN ROBESON.

Farmer Killed Negro Laboror With Whom He Had Trouble.

(Special Star Correspondence.)

Lumberton N. C., June 13.—Information was received here yesterday to the effect that a killing had occurred at McLean's Cross Roads, in Lumber Bridge Township, this county. Coroner Rancke and Deputy Sheriff Baker left immediately for the scene, returning last night. The particulars are about as follows: Andrew David, colored, worked on the farm of a Mr. McKenzie and yesterday morning when time to go to work, David reported as usual, but was in a bad humor and on his arrival at the residence of his employer, began to curse and abuse him. Mr. McKenzie had already come out to go to work and was in the yard with a shot gun in his hand. He told the negro to stop his racket and they would go to work. The negro replied that he would work for no man and that he was going to kill Mr. McKenzie, at the same time starting towards him. He was told to stand back, but instead of doing so he advanced and seized the gun. Mr. McKenzie wrenched it from him but he again got hold of it and while they were each trying to get possession of it, the gun was discharged, the whole load striking David under the chin and lodging in the brain. Death was instantaneous. The verdict of the coroner's jury was that the killing was justifiable homicide. Mr. McKenzie bears an excellent reputation in that section while that of the negro was anything but good.

LOSS OVER $1,000,000 IN BALTIMORE FIRE

Four Lives Lost—Two Steamers, Six Barges, Loaded With Cotton and Rosin, and Valuable Wharf Property Destroyed.

By Wire to the Morning Star.

Baltimore, June 13.—Te greatest fire since the conflagration of 1904, involving a property loss of about $1,000,000 and the sacrifice of three lives, occurred at an early hour this morning on the water front.

For a time the entire harbor was threatened with destruction on the north side, the flames being with difficulty kept within the confines of the wharf of the Merchants and Miners Transportation Company, and on the south side, a stubborn battle being fought to prevent a wholesale destruction of property by fire spread from the steamship Essex and six barges, which was burned.

Three members of the crew of the Essex perished and two are missing. It is believed that the missing men were burned to death or jumped overboard and were drowned. Known dead are: Edward Atkinson, cabin assist! John Castello, second steward; Manuel Odello, fireman. Five other men were rescued with difficulty by the tug Mary, two of them narrowly escaping death in the flames or drowning, as they were forced to make flying leaps to the rescuing vessel from the deck of the Essex as the former boat pulled away from the burning steamer.

On the south side of the harbor the packing house of the Moore and Brady Company was damaged, the steamer Minnie Wheeler, of the Baltimore, Chesapeake and Atlantic Steamboat Company and a cotton shed of the Merchants and Miners Transportation Company were partly destroyed. They caught fire from the barges and the Essex when they floated across the harbor after being cut loose from their moorings.

The steamer Essex arrived in port several nights ago and was half unloaded. She was lying along side of the south end of the wharf and before word could be passed she caught fire and was towed out into the harbor, burning fiercely.

Six scows and barges that were also lying alongside of the wharf were ignited at once and were soon completely destroyed. A number of them were towed out into mid-stream so as to prevent them from setting fire to adjoining property.

The barges and scows were loaded with cotton and rosin and the flames blazed fiercely, the heat from them being intense. The Essex which was valued at $300,000 is a total wreck as is the cargo on board, valued at $150,000. The damage to the Savannah pier of the Merchants' and Miners' Transportation Company amounted to $50,000.

The six barges belonging to the same company, loaded with cotton and rosin, were burned with their cargoes valued at about $200,000. Most of the pappers and bonds in the transportation company's office were saved. The firemen succeeded in keeping the flames from destroying the company's big warehouse where thousands of dollars worth of goods are stored.

The losses are covered by insurance.
